

### Error Message: Could Not Load File or Assembly “System.Data.SqlServerCe”

This error message is related to the software installation. The CODA Software requires either the 2005 or 2010 version of SQL Server or SQL Server Express. You may need some assistance from your IT department to verify what SQL version is installed on the computer.

To resolve this message:

- 1) Completely uninstall the CODA software from your computer.
- 2) Connect the CODA to the computer to install the driver, then install the SQL server.
- 3) Once that is complete, you may reinstall the CODA software.
